### 9. Massimo Alba

Fabric is at the heart of what Massimo Alba does. Showcasing his new collection at an intimate presentation in his eclectic showroom, every corner provided a chic Pinterest set-up, from oranges in bell jars (a key shade of the collection, notable on a checked overcoat) to framed poetry fragments. For AW19 he has teamed up with watercolour artist, Clementina, on a series of handkerchiefs and scarves depicting wild animals. Part of the proceeds will go to African Parks, a non-profit association that protects and conserves parks in Africa
